

Hi Julie,

Here are the comments on behalf of CBIA and the 10-member industry coalition. Please note that our submittal includes 7 pages of general and specific comments followed by two attachments, one from the California Building Officials and one from the American Society of Irrigation Consultants. As indicated in our comments, the industry coalition supports the comments being submitted by each of these two groups.

I will be in San Diego for the next three days and will be back in Sacto on Friday. If you need to get a hold of me, try my email or my cell at (916) 812-1900.

Robert E. Raymer, PE

Senior Engineer/Technical Director

California Building Industry Association
